Traveccines project

- The pleasure of travelling
- Importance of the profilaxis:
 - Vaccines
 - Relevant medical information
- User friendly website

Provisional workflow

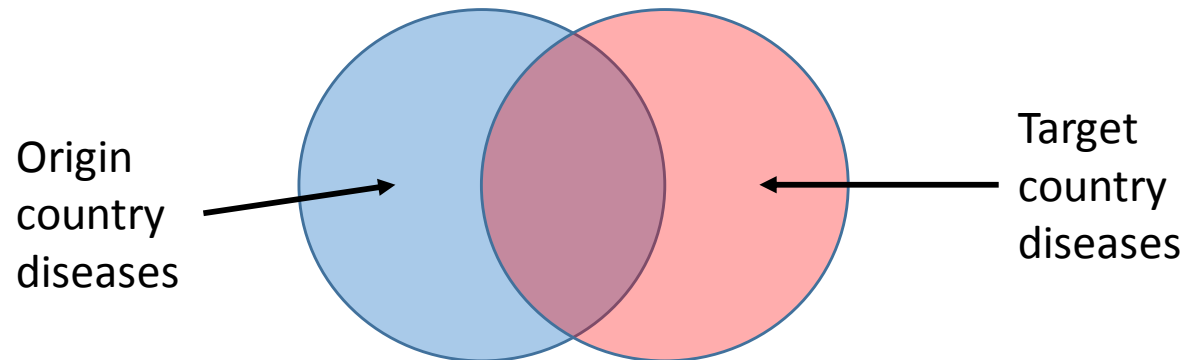

Input:

Origin country → Target country

Databases:

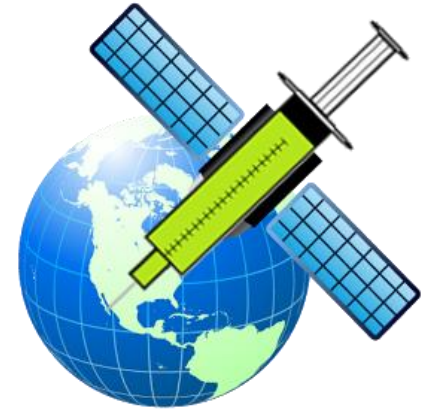

- Vaccines
- Prevention

Wanted:
Origin\Target

Provisional output

Disease	Vaccine name	Importance	Observations
Name of the disease	Commercial name of the vaccine	Very high	Apply one month before the travel
Name of the disease	Commercial name of the vaccine	Medium	Only necessary in certain zones
Name of the disease	Commercial name of the vaccine	Low	It is very rare or the disease is not important

Additional information: Epidemiological data, nowadays pandemics, other information related to the health safety in the country

Thank you
